

I cannot speak too highly about Stuart and his staff at Unistruct. I live in Canberra and they did some quite extensive work on my flat in Potts Point. So it was important that they kept me up to date with their work and the schedule. Their communication was exemplary, I always knew what was happening, including photos of work in progress.

I was extremely happy with the quality of their work. They also gave me excellent advice on some of the detail of the work to be done, improving the final result no end.

Their paper work was comprehensive and accurate so it was always easy see what was scheduled, when and what would happen next. The work was also done on time and the workers turned up when they said they would.

It was a delight to deal with Stuart, always courteous and helpful and informative. I have recommended him to friends already and will continue to sing his praises.

Donelle
